AS 1065—1988 Reconfirmed 2022

Australian Standard®

NON-DESTRCUTIVE TESTING— ULTRASONIC TESTING OF CARBON AND LOW ALLOY STEEL FORGINGS This Australian Standard was prepared by Committee MT/7, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of the Standards Association of Australia on 4 December 1987 and published on 17 June 1988.

The following interests are represented on Committee MT/7:

Australian Nuclear Science & Technology Commission

Australian Institute for Non-destructive Testing

Australian Pipeline Industry Association

Australian Welding Institute

Bureau of Steel Manufacturers of Australia

Confederation of Australian Industry

Department of Defence

Department of Industrial Relations and Employment, N.S.W.

Department of Labour and Industry, Victoria

Electricity Supply Association of Australia

Hawker de Havilland Victoria, Aerospace Manufacturing Sector

Institute of Australian Foundrymen

Metal Trades Industry Association of Australia

National Association of Australian State Road Authorities

National Association of Testing Authorities

Pipeline Authority

Railways of Australia Committee

Society of Automotive Engineers, Australasia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

RECONFIRMATION

OF AS 1065—1988

Non-destructive testing — Ultrasonic testing of carbon and low alloy steel forgings

RECONFIRMATION NOTICE

Technical Committee MT-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 12 July 2022.

The following are represented on Technical Committee MT-007:

Australasian Thermographers Association

Australian Industry Group

Australian Institute for Non-Destructive Testing

Australian Nuclear Science & Technology Organisation

Austroads Limited

Engineers Australia

Institute of Electrical Inspectors

Materials Australia

National Aerospace Non-Destructive Testing Board of Australia

National Association of Testing Authorities Australia

New Zealand Defence Force

New Zealand Non-Destructive Testing Association

Weld Australia
