

Australian/New Zealand Standard™

Filters for eye protectors

Part 1: Filters for protection against radiation generated in welding and allied operations

AS/NZS 1338.1:2012

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee SF-006, Eye and Face Protection. It was approved on behalf of the Council of Standards Australia on 13 June 2012 and on behalf of the Council of Standards New Zealand on 18 June 2012.

This Standard was published on 29 June 2012.

The following are represented on Committee SF-006:

Association of Accredited Certification Bodies
Australasian Fire and Emergency Service Authorities Council
Australian Chamber of Commerce and Industry
Australian Dispensing Opticians Association
Australian Industry Group
Economic Development Agencies of New Zealand
New Zealand Association of Optometrists
Optical Distributors and Manufacturers Association of Australia
Optometrists Association Australia
Queensland University of Technology
TestSafe Australia
The Human Factors and Ergonomics Society of Australia
University of Auckland
University of New South Wales
Welding Technology Institute of Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

Australian/New Zealand Standard™

Filters for eye protectors

Part 1: Filters for protection against radiation generated in welding and allied operations

Originated in Australia as part of AS B91—1951.
Originated in New Zealand as NZS 5817.1:1983.
Previous and first joint edition AS/NZS 1338.1:1992.
Third edition 2012.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee SF-006, Eye and Face Protection, to supersede AS/NZS 1338.1:1992, *Filters for eye protectors, Part 1: Filters for protection against radiation generated in welding and allied operations*.

The objective of this Standard is to specify requirements for filters used in eye protectors intended to provide protection against radiation of high intensity emitted during welding and allied operations.

The objective of this revision is to bring the Standard in line with current Australian practice. It is planned to eventually adopt an ISO Standard as a Joint Australian/New Zealand Standard.

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
FOREWORD.....	4
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	5
1.2 REFERENCED DOCUMENTS.....	5
1.3 DEFINITIONS.....	5
1.4 DESIGNATION OF FILTERS	6
SECTION 2 GENERAL REQUIREMENTS	
2.1 FILTERS FOR GAS WELDING	7
2.2 FILTERS FOR ELECTRIC WELDING	9
2.3 COVER PLATES	12
2.4 ADDITIONAL REQUIREMENTS FOR AUTOMATIC WELDING FILTERS.....	12
SECTION 3 TESTING	
3.1 GENERAL.....	14
3.2 SEQUENCE OR GROUPING OF TEST SPECIMENS.....	14
SECTION 4 MARKING	
4.1 MARKING OF FILTERS	15
4.2 IDENTIFICATION MARKING OF COVER PLATES	15
4.3 MARKING OF AUTOMATIC WELDING FILTERS.....	15
4.4 ADDITIONAL INFORMATION	16
APPENDICES	
A GUIDANCE ON SELECTION OF FILTERS FOR PROTECTION AGAINST OPTICAL RADIATION GENERATED DURING WELDING AND ALLIED OPERATIONS.....	17
B DETERMINATION OF PERMANENCE OF FILTERS	19
C DETERMINATION OF THE RESPONSE TIME AND HOLDING TIME OF AUTOMATIC WELDING FILTERS	21
