

Australian/New Zealand Standard™

**Electrical installations—Classification of
the fire and mechanical performance of
wiring system elements**

AS/NZS 3013:2005

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-037, Special Wiring Systems. It was approved on behalf of the Council of Standards Australia on 13 July 2005 and on behalf of the Council of Standards New Zealand on 29 July 2005. This Standard was published on 22 August 2005.

The following are represented on Committee EL-037:

Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Australian Industry Group
CSIRO Manufacturing & Infrastructure Technology
Canterbury Manufacturers Association New Zealand
Engineers Australia
Ministry of Economic Development (New Zealand)
National Electrical and Communications Association
Property Council of Australia
Testing Interests (Australia)

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.
